

100% backyard compostable

From the earth, back to the earth.

Hawaiian Ethos packaging by HumidiNaturals are designed to break down in your home compost within 14 to 18 months.

0% plastic Means these materials break down naturally, leaving behind no micro-plastic particles.

Better packaging

- ✓ Made from PHA derived from plant-fed bacteria
- ✓ Quality seal keeps flower and products fresh
- ✓ Backyard compostable in about 14-18 months
- ✓ Accelerated composting breaks down in 2-4 months
- ✓ Rigid construction protects products integrity
- ✓ Paper labels break down quickly

Where to compost?

Compost your containers at home or turn them into Ethos where we'll compost them at the farm for you. Talk to Ethos for information and tips about home composting.
